## Ornamental Trees, Shrubs and Vines

### A List of Choice Young Stock for Setting Out in Nursery Rows

Herewith we offer you an extra choice lot of young ornamental stock for planting in nursery rows. We sell quantities of this same material every season to other nurserymen and they advise us that they secure better results than from the stock secured from other sources.

It is all good, young stock, thrifty and nicely rooted, and we know it will give you satisfaction.

To secure the full line that you will require you should be one of the "early birds" and send in your order immediately.

Shipment will be made just as soon as our Spring season opens up, usually about the fifteenth of March, or earlier, if required

## RED STAR BRAND RAFFIA

To take effect January 1st, 1907, and continue until further notice

By arranging early in the season for an unusually large importation of the now famous **Red Star Brand Raffia** we have been able to secure it at a lower rate, and for early orders, while this supply lasts, we will give our customers the benefit of this reduced price, it being understood, however, that the price is subject to advance when this supply is exhausted. Orders will be booked now either for immediate delivery or for shipment not later than July 1st.

**Red Star Brand Raffia** needs no recommendation, it has been used during the last three years by hundreds of nurserymen throughout the country, and being direct importers of this Raffia, we are able to procure it from first hands and can maintain our guarantee of its quality. No other importer of Raffia will do this. You may at times be able to buy from others, some promiscuous brands at a lower price, but you take chances on the quality, and ninety-nine times out of a hundred you will find the lower priced material of inferior quality. It pays to order a standard brand and know that you are getting it under a guarantee, and if it is not as represented you can get your money back.

1 lb. at 15c. per lb.	50 lbs. at 9½c. per lb.	2 bales at 8¼c. per lb.
25 lbs. at 10c. per lb.	100 lbs. at 9c. per lb.	5 bales at 8c. per lb.
	1 bale (225 lbs.) at 8½c. per lb.	

Remember if you want these prices send in your order at once, stating if you wish the goods shipped immediately or reserved for later delivery.

## HYDRANGEA PANICULATA GRANDIFLORA

STRONG ONE YEAR PLANTS FOR SETTING IN NURSERY ROWS.

For many years we have furnished nurserymen with these strong one year old plants of *Hydrangea paniculata grandiflora* for nursery planting and they have given the greatest satisfaction. Our strong one year plants are equal to the two year imported stock, and the percentage of loss in transplanting is far less than those brought from Europe. We have only a limited amount to offer. Order at once, for spring shipment, what you will require for your usual planting. Strong one year plants, 50c. per 10; \$2.25 per 100; \$20.00 per 1000

**Labels** Following are the kinds mostly used by nurserymen. For 10,000 or more we allow a discount of 10 per cent. 1,000 3½-in. and 100 6-in. in a package. Not less than a full package sold.

**Spades** The Best Nursery Spade D Handle, Double Strap, Reinforced Nursery Spade. Weight 9½ lbs Price \$1.75 each, \$20.00 per doz. We have experimented with a number of different makes of nursery spades, but find this to be the strongest, best and most durable on the market. It is strapped full length of handle, both back and front, and half way up it has double straps, strengthening it in what otherwise would be its weakest parts. When ordering state if straight or taper blade is wanted.
